

# CigaretteBuster™ Air Vent- Talker

The advantages are clear!

*The most popular non-smoking enforcement system in the world*

### It's Successful!

Continuous and automatic monitoring eliminates smoking in bathrooms, stairwells, and other areas designated as non-smoking

### It's Cost-Effective!

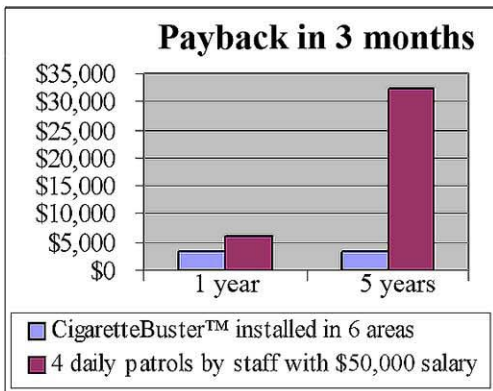

Pays for itself in a few months by freeing staff from routine bathroom patrol

### It's Impartial!

Decreases complaints about non-smoking rules violations

### It's Simple!

Easy to install and low maintenance

### Praise for CigaretteBuster™

High school teacher Dick Austin observed immediate elimination of both smoking and the need for teachers to act as monitors and said "I can't praise it enough"

## How the CigaretteBuster™ Common Courtesy Air Vent Talker works:

Install Air Vent Talker in room to be monitored. Detector senses any illicit smoking and plays message reminding smoker of NO SMOKING policy. Use our pre-recorded message or record one of your own. Message can be changed.

*Proven results in high schools, colleges, hotels, airports, factories, and hospitals for over 10 years.*

We also carry short range wireless systems, wired systems, and systems with pager notification. Call us to help you determine which approach best suits your site.

**Stop non-smoking policy abuse**
