I am writing this letter expressing how pleased we have been with your product (CigaretteBuster Air Vent). We installed the product in 2001 and they have been very effective keeping smokers out of the restrooms and saved many of man hours of restroom supervision. I would also like to express our gratitude for offering to repair the product at no charge. Our restrooms and hallway always get compliments from others in the building on how well maintained and smoke free they are.

if you are having problems with smoking in your restrooms, installing these doctors are a must. The company is great to work with to ensure customer satisfaction and stand behind the product.

Sincerely,

Rick Snodgrass, Assistant Principal  
Hopkins County Central High School
