Re: Success of the Product

Dear Sir:

Typical of some high schools, we have had an issue with students smoking in the bathroom. I researched online and found this product. We took a chance and ordered it with the hopes of curbing some of this small but constant nuisance.

Within two days, we had caught three smokers. In fact, when I met one of them when he left the bathroom, he remarked, "How did you know?" My reply was "magic," which is what it is. Our smoking has decreased significantly. I am now about to order more for the rest of our bathrooms across the school.

Thank you for a great product that works as advertised.

Sincerely,

Bobby Costlow
