Mr. Kaufman,

I would like to thank you for offering to repair the cigarette buster we are sending you at no charge. For years the hallways near the rest rooms of Weir High School smelled of cigarette smoke during class change. At times a teacher would get lucky and catch someone smoking, but most times the kids would not get caught. They always seemed to know when we were coming. After installing the cigarette busters in the spring of 2008 our smoking problem stopped.....immediately. The first two days were hectic but after that, the word was out and the smoking stopped. Your product works.....thank you very much.

Anthony Perri
Asst. Principal
Weir High School
